

THE Music Chef

Today our music chef's registration recipes are based on musical 'Famous Names'. The recipes are easy to put together as they use only ingredients that are available from a Tyros5 as it is supplied new. As a bonus for Tyros5 owning subscribers, the complete bank of registrations is free to download.

1. Famous Names - Volume 1

Building on the success of the Registration Builder article in the last issue our Music Chef feature is following suit with a 'D.I.Y.' library of registrations for owners of instruments that share the Tyros operating system.

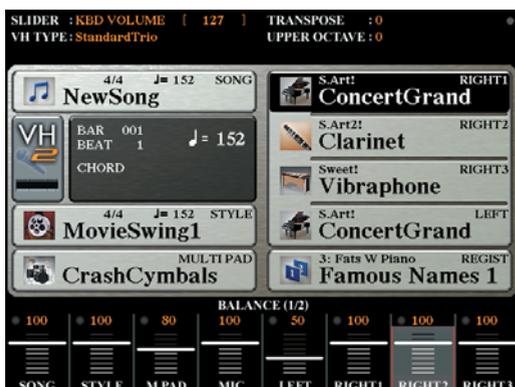

The registrations were made using a Tyros5 but anyone with a keyboard that has the voices used in the settings will be able to adapt them to suit from these notes. Although I've only room to include three of my settings here I have created a full bank of eight registrations using Tyros5 (and added a few extra 'tweaks' for good measure). The full bank, compatible with Tyros5 and Genos keyboards, is available free to any subscriber to Yamaha Club during the April/May life of this magazine. Just email info@yamaha-club.co.uk with 'Music Chef' in the subject line to have the file sent direct to your inbox.

	Instrument	Octave tune	Level
Right 1:	Vibraphone	(0)	100
Right 2:	Jazz Artist (Guitar)	(-1)	80
Right 3:	Ambient Piano	(0)	100
Left:	Vintage Accomp 3 (Organ)	(+1)	114
Harmony:	Block (assign to Right3)		80
Multi Pad:	DooWop2		80
Style:	Acoustic Jazz (Variation A)		152bpm

Set the volume levels as shown in the illustration opposite and the Octave pitch in the TUNE page of the Mixing Console.

Try this registration with tunes such as Lullaby Of Birdland, Autumn Leaves etc.

	Instrument	Octave tune	Level
Right 1:	Concert Grand	(0)	100
Right 2:	Clarinet	(0)	80
Right 3:	Vibraphone	(0)	100
Left:	Concert Grand	(+1)	114
Multi Pad:	Crash Cymbals		80
Style:	Movie Swing 1 (Variation C)		152bpm

Set the volume levels as shown in the illustration opposite and the Octave pitch in the TUNE page of the Mixing Console.

Try this registration with tunes such as Honeysuckle Rose, Ain't Misbehavin' etc.

* The voice parts shown in light grey are switched off but ready to be used for an extra layer of variation.

Kaempfert Blues

	Part	Octave tune	Level
Right 1:	Live Allegro (Legacy Strings)	(0)	105
Right 2:	Live Strings (Legacy Strings)	(-1)	100
Right 3:	Romance Strings	(0)	100
Left:	Accomp Ooh	(+1)	36
Harmony:	4WayClose2 (assign to Right1)		100
Multi Pad:	Cym & Chimes		100
Style:	Vocal Foxtrot (Variation C)		126 bpm

Set the volume levels as shown in the illustration opposite and the Octave pitch in the TUNE page of the Mixing Console.

Try this registration with tunes such as Bye Bye Blues, red Roses For A Blue Lady etc.

Extra notes on Shearing Combo

The initial setting for the Shearing Combo is pretty much taken from the Tyros5's One Touch Settings. It's a great sound and I don't think I can improve on it. I have, however, adjusted it slightly due to my personal preference for a bit (sometimes 'quite a bit') more reverb. You can try it for yourself and, if you prefer the 'drier' sound, simply leave it as it is.

- 1 Enter the Mixing Console and select the EFFECT tab at the top of the screen.

Then, under the REVERB heading, set the levels for the LEFT, RIGHT1, RIGHT2 and RIGHT3 parts, as shown above, to 20, 30, 30, 30 respectively.

- 2 Select the TYPE button circled above to call up the EFFECT ASSIGN page.

Select the TYPE area circled and you will be able to choose 'Real Large Hall' from the list of options that appears.

EXIT the Mixing Console and update the registration in the Registration Memory.

Extra notes on Fats Waller Piano

- 1 Before you save the registration press the CHANNEL ON/OFF button to show which parts are playing in the accompaniment style.

- 2 Switch off the RHY2, CHD1, PAD, PHR1 and PHR2 parts to leave only a light rhythm in RHY1, some bass and a piano sound in the accompaniment.

If you had already saved the registration, update it in the Registration Memory before switching off.

Our Music Chef will be back in the next issue with more 'Famous Name' sounds for you to make. Don't forget that Tyros5 and Genos owners can get the full bank of eight registrations free of charge by email.
